You must register with the site before you can sign up for a specific day of service. E-mail questions to kelly@rivercityhabitat.org

The House that Cans Built... We are still recycling aluminum cans to help build Habitat homes. You can find the complete list of Can Cottage locations on the column at left, top of page 1. The Aluminum Can Recycling Committee will be sponsoring a build at 815 Montana this spring. The Habitat house will be a home for the Latrise Wilson family.

Site Supervisor's Needed

RCHFH is very blessed to have so many skilled construction volunteers willing to provide leadership to our job sites. As we continue to grow in our capacity to build, we are in need of more volunteers interested in being trained as site supervisors. If you think you might be interested, please contact the Habitat office.

RCHFH and Area Lutherans Complete Thrivent Build

Habitat Partners Vickie and Troy Mitchell were home for the holidays with their family at 1106 E. Atchison thanks to the dedication of the Habitat Tuesday Crew, Construction Volunteers, Area Lutherans, and the Thrivent Builds program. We will begin our FIFTH Thrivent-funded build in 2010. Thanks goes out to all who volunteered labor on the build, provided lunches or breakfasts, or who helped with publicity and family selection and support on this build.
